

**IN THE ABSTRACT:**

Please amend the Abstract of the Disclosure as follows:

~~The invention refers to a~~ A trommel screen machine, ~~comprising~~ including at least one revolving screening drum (2), at least one drive (3) for the screening drum, a feeding hopper (4) as well as at least one collecting device, ~~respectively~~ such as a transport device (6), for collecting, ~~respectively~~ and transporting the screened good. ~~The invention is characterised by the fact that in~~ In front of and/or on the trommel screen machine (1) at least one disc screen (5) is arranged which screens a defined grain, in particular oversized particles.
